Solutions Table

This table represents some of our more popular brands. Don't see what you need? Contact us for more details.

PUMPS, BLOWERS & HX

- Abaque
- Almatec
- AMT Pumps
- Borger Lobe Pumps
- Duroflow
- Elmo Rietschle
- Flotronic
- Gardner-Denver
- Griswold
- Grundfos
- Gusher
- Iwaki
- Magnatex
- MTH
- Peerless
- Pulsafeeder
- RotoPumps
- Standard Xchange
- Sutorbilt
- Truflo
- Unibloc
- Verder
- Viking Pump
- Wilden
- Wrightflow Technologies

INSTRUMENTATION

- Ashcroft
- Clark Reliance
- Det-Tonics
- Dynisco
- Endress+Hauser
- Gems Sensors
- Hardy Process
- Intertec
- K-Patents
- Macurco Gas
- Pepperl+Fuchs
- Thermon Heat Trace
- Vaisala
- Watlow

VALVES

- A+R
- Amresist
- Asco
- Atomac
- Automax
- Delval
- DeZURIK
- DFT
- Durco
- Evoguard
- Flowserve
- Inline
- NAF
- QTRCO
- Kammer
- Strahman
- SVF
- Tretter (TMC)
- Valtek
- Velan

MUNICIPAL PRODUCTS

- Asco
- Ashcroft
- DeZURIK/APCO/Hilton
- Eaton
- EIM
- Endress+Hauser
- Gardner Denver
- General Rubber
- Hydrovision
- Kinetrol
- Latanick
- Plastifab
- Pulsafeeder
- Red Valve
- Roto Pump
- Smith & Loveless
- Syneco
- Thermon
- Tideflex
- Trumbull

FILTRATION

- Carotek Filtration Solutions
- Eaton Filtration
- Eaton/BECO Sanitary
- Unibloc Hygenitec
- Viking Pump

FABRICATION & MECHANICAL

- Pipe Fabrication
- Process Skids
- Pump & Blower Skids
- Seal Pots

STEAM & HYDRONICS

- Amtrol Tank
- Armstrong International
- Donaldson
- Everactive
- FlowTech
- Grundfos
- KEP
- LJ Wing
- Macurco
- Paco
- SeeWater Pump Controls
- Shannon Enterprises

ELECTRICAL INTEGRATION SYSTEMS

- Custom Control Panels
- Pfannenberg Cooling Systems
- Gas & Water Analytical Panels

SERVICES

- Field Service
- Grundfos Warranty Service
- Instrumentation Calibration
- Valve Automation
- Pump and Blower Repair
- Steam System Services

TRAINING

- Filtration
- Instrumentation
- Steam/Hydronics
- Process Solutions Summit
- Valves
- Pumps

Some product lines are not available in all states. Please contact us for more details.

PUMPS, BLOWERS, VACUUM PUMPS, HX

Carotek has been serving the process equipment industry since 1965, with pumps being a key mechanical equipment component. Carotek offers a wide range of pump types and brands to meet your application needs. We also offer fabrication of Pump Skids, Blower Skids, Complete Process Skids, Control Panels & Seal Pots
For more information, visit carotek.com/pumps or call us for expert assistance.

SEAL POTS

Carotek manufactures Seal Pot Pressure Vessel Tanks in our Charlotte facility in Matthews, NC. As a premier industrial seal pot manufacturer, we offer standard and custom built ANSI / API mechanical seal support systems for industrial, chemical, and petrochemical applications.

We offer:

- ANSI Seal Pot Pressure Vessels
- Seal Support Systems
- API Seal Pot Pressure Vessels
- Custom Seal Pot Pressure Vessels

Learn More at
Carotek.com/sealpots

WHY BUY CAROTEK SEAL POT PRESSURE VESSELS?

- Made in America
- Quick Quotes
- Quick Delivery
- Expert application assistance
- Millwright quality
- TIG and MIG welded
- Designed to ASME Section VIII, Division 1, E2007, 2008, Addenda
- Available with (U) and (UM) code stamps, registered with ASME national board
- Leak free seal service on chemical applications for pumps and mixers
- Meet all the requirements of ANSI and API specifications
- Adaptable modular designs can be combined with cooling coils, level switch/transmitters, pressure switch/transmitters, air coolers, and circulating pumps for a wide variety of applications
- Durable, flexible, and offer reliable performance for your demanding operations
- Perfect for toxic, expensive hazardous and EPA regulated fluids

SEAL POTS

SEAL POT SPECIFICATIONS - STANDARD UNITS

Tank Capacity	2 Gallon, 3 Gallon, or 5 Gallon; 6" & 8" DIA
Operating Pressure	400 PSI @ 200°F
Tank Material	304/304L SCH 10
Cooling Coil	½" x 0.065" wall seamless tube; 20' long 316/316L
Level Gauge	Weld Pad - Size 3, 5 ¾" Visibility
Hydrostatic Test Pressure	525 PSI
Allowable Temp	-20° F to 200° F
Fill Port	¾" NPT
Seal Connections	½" NPT
Level Switch Connections	¾" NPT
Options	Pressure Regulator Pressure Indicator Explosion Proof Ultrasonic Level Switch Code Stamp available either (U) or (UM)

CAROTEK SEAL POT SPECIFICATIONS FORM

Use this form to plan your seal pot specifications prior to requesting a quote.

QUANTITY SEAL POTS? _____

DATE NEEDED? _____

Pump Application

- ANSI API
 OTHER - DESCRIBE _____

SIZE NEEDED?

- 2 gallon 3 gallon (for pump shaft dia. < 2.5")
 5 gallon (for pump shaft dia. < 2.5") Other

TANK MATERIAL OF CONSTRUCTION

- Standard comes 304 Stainless Steel schedule 10
 Other Material _____
(Eg. 316SS, Duplex SS, Monel Alloy-400)

DESIGN TEMPERATURE

- Standard Temperature Rating is 200 degrees F
 Other Temperature _____

DESIGN PRESSURE

- Standard Pressure Rating is 400 PSI (27.5 BAR)
 Other Pressure _____

COOLING COIL NEEDED?

- Yes (Standard: 1/2" OD x 0.065" Thk. x 20' 316/L SS Tube)
 No

SEAL CONNECTIONS

- Standard is Threaded 1/2" NPT
 Other _____

ASME CODE STAMP

- Yes No

LEVEL GAUGE

- Standard size 3, 5 3/4" visibility rated to 400PSI/200F
 Other _____

OPTIONAL ACCESSORIES

PRESSURE GAUGE

- Yes - state range: _____
 No

PRESSURE REGULATOR

- Yes - state range: _____
 No

LEVEL SWITCH

- High Level Yes No
Low Level Yes No

PRESSURE SWITCH

- Yes No

HAZARDOUS AREA CLASSIFICATION

- Yes - Describe: _____
 No

STAND

- Yes No

ISOLATION BALL VALVES

- Vent Drain Seal Connections (In/Out)
 Coil Connections (In/Out) No

INSTRUMENTATION

SERVICES

Carotek offers a full range of services for most makes of instrumentation. Our highly trained certified staff can help extend the longevity of your equipment, optimize process run conditions, and save you money. Turnaround times are the best in the industry, and we guarantee our work.

We offer:

- Startup assistance
- Field service and repair – 24/7
- On-site accredited instrument calibration with certificates for ISO17025 and NIST traceability
- SWAS Panel fabrication for real time analysis of steam and water
- Site audits for process automation enhancements
- Training – Hands-on in our working Process Training Unit, year round classes for PDH credits

For more information on the following offerings, please reference the respective brochures.

PROCESS SKIDS

VALVE AUTOMATION

Carotek's valve automation center creates assemblies in our facilities to significantly save time in the field.

- We assemble valve systems from 1/2" - 48"
- Rotary and linear valve automation for On/Off and modulating service
- Smart positioner configuration
- Retrofit kits for existing valves in the field
- All valve assemblies are functionally tested, quality checked, serialized and tagged before shipment

STEAM, HYDRONICS, FILTRATION

Carotek has served the Institutional, Commercial, and Process Industries with hydronic heating products, steam & condensate systems, and filtration since 2001. We offer the finest manufacturer's products, with a focus on energy conservation and optimum system performance.

Below you will find a list of our Steam, Hydraulics & Filtration products. Combined with our full process equipment lines, control panels and process skids, Carotek offers you the Power of Solutions. Contact us today.

STEAM SYSTEM SERVICES

Carotek, through close association with Armstrong International, offers a variety of products and services to ensure your steam system is operating at peak efficiency. From training to on-site services such as energy audits and steam trap surveys, to online steam trap monitoring and hot water systems monitoring, Carotek and Armstrong provide the assistance and expertise that is unmatched in the industry.

- Steam Trap Surveys and Audits to prevent failures and save costs
- Wireless Steam Trap Monitoring in Real-time to prevent energy loss and safety issues
- Hot Water Monitoring to prevent service interruptions
- Comprehensive System Energy Audit with detailed report recommending energy conservation measures and efficiency improvements
- Utility Systems Management from turnkey installation to ongoing maintenance, including custom engineering and financing
- Training On-Site, in our Matthews facility or On-line

CONTROL PANELS & SYSTEM INTEGRATION GROUP

Carotek's Control Panels and Systems Integration Group offers complete Control System integration including fabrication of control panels and assist with start-up on your next automation project.

For more information, visit carotek.com/control-panels or call us for expert assistance.

WHY CAROTEK CONTROL PANELS?

We offer:

- Complete Control Fabrication
- UL/CUL 508A, 698 and 1203 Certified
- Authorized Integrator for most major PLC and HMI Manufacturers
- Experience with all major brands of DC Drive and AC Variable Frequency Drives
- Systems fabricated to your design, drawings and programs
- AutoCAD Electrical generated drawings
- Software Development can be arranged with 3rd party suppliers
- All systems tested prior to shipment
- On site Start-Up Assistance and Training
- Existing production process automation

Industry Applications

- Pulp & Paper
- Plant Process Control
- Pharmaceutical
- Process Instrumentation
- Food Processing
- Variable Speed Applications
- Plastics
- Power Generation
- Material Handling
- Petro Chemical/Chemical
- Wireless Applications
- Automotive
- Bio-Diesel
- Water & Wastewater

CONTROL SYSTEM SERVICES

We start by taking the time to completely understand your requirements and the goals for the control system. For large systems, each control panel is fabricated with the system operators in mind.

- PLC/HMI authorized integrator - All major brands supported
- Report generation
- Complete annotated documentation
- Installation and operator documentation and training
- Multiple drawing formats (size & color)

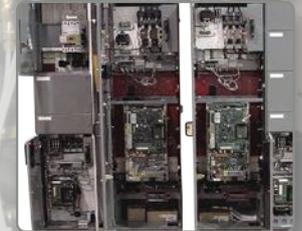

CONTROL PANELS &
SYSTEM INTEGRATION GROUP

CONTROL SYSTEM CALIBRATION & TRAINING

Carotek offers unparalleled startup assistance to get your control panel system up and running quickly, operator training to ensure system integrity, and 24/7 services when needed. This includes:

- Factory qualified technicians
- Start-Up services
- Operator/User training
- Instrument calibration & repair
- Field Troubleshooting
- Plant & system audits

We will come to your facilities with our control panels and provide startup assistance to ensure that everything is working correctly. This includes startup testing to ensure compliance with any required standards. Our team also will ensure all instruments are calibrated correctly and repair/replace any existing instrumentation as needed. We will troubleshoot to ensure complete system integrity before leaving the job site.

CONTROL PANEL UL CERTIFICATIONS

Carotek offers several certifications on all of our control systems according to your particular process requirements. We are a UL 508A, 698 and 1203 certified panel shop for industrial control panels (standard and hazardous). We can do certification testing for your existing control panels - only in our facility. Testing in your facility must be conducted by UL.

Hazardous Location Certified

Our latest certification is in the UL's Hazardous Location Industrial Control Panel Program, accepted in every jurisdiction across North America. The industrial control panels covered by these UL services are assemblies of components such as motor controllers, overload relays, fused disconnect switches, circuit breakers and related control devices. These related control devices may include push-button stations, selector switches, pilot lights, control relays, and associated wiring terminals.

CONTROL PANEL THERMAL MANAGEMENT

Carotek is an authorized stocking Pfannenberg Distributor who specializes in thermal management solutions to maximize up-time and efficiency. Products include Panel Mounted Air Conditioners, Air-to-Water / Air-to-Air Heat Exchangers, Chillers, Exhaust Fans, Heaters, Hydrostats, & Thermostats. Carotek also provides sales, service, and spare parts for all your thermal management needs.

For more information on the following offerings, please reference the respective brochures.

PROCESS SKIDS

Integrated pre-piped and pre-wired process systems. Complete piping design, fabrication and Factory Acceptance Testing. Control Panel integration available.

PROCESS SKIDS

Carotek offers custom integrated process skid fabrication for mechanical and electrical skid mounted process systems that are pre-wired and mounted on a common base to meet your specific design and process requirements.

Carotek is your single source solution for custom integrated process mechanical skid packages including control panels. We are a process skid manufacturer of choice for Power Generation, Chemical Process and Pulp & Paper, general industries and engineering firms.

Contact us today for a customized quote at carotek.com/process-skids.

WHY CAROTEK PROCESS SKID FABRICATION?

- Skids are built in our state-of-the-art facility in Matthews, NC
- Our indoor fabrication facility means more control over production time with no weather delays
- FAT Tested in our shop for full check out before shipment, to get you online faster with no start-up problems
- Single PO for complete mechanical/electrical skids
- Component research, selection, purchasing and expediting
- On-site inventory of Pumps, Blowers, Heat Exchangers, Instrumentation, Valves, Filtration, Tanks, Seal Pots & Control Panels
- Full 3 D modeling documentation provided for every skid
- Project management for engineering, purchasing, and shop fabrication
- ASME Section IX Welding qualifications
- ASME Section VIII U and UM code stamp available
- QA Program assures you of project standards & documentation
- NDE inspections
- ANSI B 31.1 in accordance with your P+ID

PROCESS SKID SPECIALTIES

- Fuel Oil Unloading & Transfer Skids
- High Pressure Systems
- Truck Unloading Skids
- Pump & Blower Skid Packages
- Heat Exchanger Skids
- Water Treatment Skids
- Balance of Plant System Skids
- Chemical Process Skids (Metering Skid, Injection Skid, Dosing Skid, Feeding Skid, Transport Skid, Blending Skid, Extraction Skid, Filtration Skid)

FABRICATION FACILITIES

Carotek's process skid fabrication facilities are designed to handle many different types of Process Skids with the highest quality control. Today, our facilities encompass 85,000 SF including:

- 25,000 SF Main Mechanical Fabrication Shop
- 5,000 SF additional fabrication and lay-down facility
- 15,000 SF UL/CSA Panel Fabrication Shop
- 12,000 SF Warehouse and valve automation center
- 28,000 SF Office
- 25 Ton / 10 Ton / 5 Ton Cranes
- 2 Paint Booths
- Drive-in & Pull Through Loading Docks
- Complete Testing - Electrical, NDE, Hydro, Pneumatic, Valve Assemblies, Pump Packages, Mechanical Engineered Packages & Electrical Control Systems

FABRICATION CAPABILITIES

- Stainless and Carbon-steel piping and structure
- Electrical layout and design, wiring and testing
- Mechanical assembly
- Instrumentation and Valve installation and calibration
- Pipe fitting/Welding, and installation
- Structural fabrication
- Welding done by certified experienced and highly skilled staff
- Fully equipped for a wide variety of projects involving carbon steel, sanitary piping, aluminum and Hastelloys, Inconell and other exotic metals
- Insulation
- Painting
- FAT testing

For more information on the following offerings, please reference the respective brochures.

CONTROL PANELS

Custom control cabinets and integration. PLCs, HMIs, VFDs, complete design, software development & startup.

ADDITIONAL PRODUCT LINES

- Instrumentation
- Valves
- Pumps
- Blowers
- Steam & Hydraulics
- Heat Exchangers
- Filtration
- Control Panels

SERVICE & REPAIR

- Pump Repair
- Valve Automation
- Instrumentation Calibration
- System Start-Up
- Steam System Services
- Field Repair
- Training

CONTROL PANELS

Carotek offers specialized products to meet the needs of the food and beverage industry - instrumentation, valves, pumps, steam & hydronics as well as complete process skids and control panels for process automation and process control systems.

Carotek understands that process integrity, recipe compliance, and product reliability are basic prerequisites in food processing. Additionally, because most processes must remain closed and contamination of the process media must be prevented in every phase of production, you can rely on our expertise to provide the right solutions.

Our specialized product application engineers are available to help you determine the best products to meet stringent sanitary standards, increase product quality and consistency and enhance the efficiencies of your process.

Whatever your needs, let Carotek help.

CONTACT US TODAY.

SANITARY PROCESS INSTRUMENTATION

Carotek offers a variety of specialized instrumentation product lines that cater to the food and beverage industry. We understand our customers need to control the quality and safety of their products.

Whether you need to measure and control flow, level, pressure, temperature, density, pH, weight or even color, we have instrumentation and controllers to help with all of your critical process parameters with hygienic connections and food grade approvals.

We understand the importance of managing your inventory and remaining in compliance with regulatory standards. We have instrumentation to help you reduce waste as well as manage energy costs.

We also offer on-site NIST traceable calibration, field service and remote service. Certifications include A2LA, from ISO-17025 accredited labs.

SPECIALTY VALVES

Carotek offers a variety of specialized valves, actuators and controls that meet the needs of the food and beverage industry with 3-A Certifications. We offer a wide range of high-performance, high-quality butterfly valves, ball valves, check valves, and mix proof valves suitable for both hygienic and aseptic applications. We also offer solenoid valves and fluid control solutions for sanitary and steam and hot water applications.

Carotek's Valve Automation Center creates valve assemblies in our facilities that can save you a significant amount of time in the field with faster startups. Our Process Valve expertise combined with our engineered solutions capability can solve the most complex challenges that you bring to us.

FOOD GRADE PUMPS

The food and beverage industry relies on pumping and mixing solutions to manufacture their products. Carotek has various pump product lines that cater to the food and beverage industry's hygienic and sanitary requirements, including 3-A and FDA. We also offer extensive pump parts inventory as well as expert repair by factory certified technicians.

FILTRATION

Maintain quality, consistency, and purity while minimizing maintenance and maximizing throughput with a wide variety of filtration products from Carotek.

MIXERS

Carotek offers the Packo shear mixer pump which is mainly used for in-line mixing, homogenization and dispersion applications. The shear is generated between the rotor and an innovative and optimized perforated stator (patented). The final goal is to achieve a homogeneous solution of two liquids with high difference in viscosity and/or density and to obtain a significant particle size reduction for emulsions and particles leading to a more stable final product.

BOD REMOVAL

The wastewater from food and beverage operations is unique and often contains high levels of BOD, biological oxygen demand. High levels of BOD in the wastewater can put excessive demands on municipal wastewater treatment facilities. In turn, many municipalities are putting that burden back on the food and beverage processors in high surcharges and restrictions on output.

Carotek offers solutions that are a lower cost alternative to other conventional wastewater treatment options and requires much less real estate.

WASH DOWN EQUIPMENT

Carotek offers exceptional washdown solutions made with premium, high-quality parts designed to withstand your most challenging applications. We can supply your needs for mixing unit hose stations, hoses and hose reels and spray nozzles.

STEAM & HOT WATER

Carotek can supply your steam, hot water, condensate systems, pressure boosters and controls. We also offer steam trap and machine health monitoring with battery less sensors that use only harvested energy.

Our detailed plant utility assessments, thermal audits and steam trap surveys can reveal opportunities for energy savings, decarbonization and reliability improvements.

CONTROL PANELS

Carotek offers control panel fabrication, as well as system integrations for food and beverage processes that have sanitary requirements. Control panels and PLC control cabinets are fully customizable according to your specifications. We design, fabricate, develop software and assist with system startup.
