

HYGIENIC VALVE SERIES

CleanFLOW
An SVF Product Line.

CleanFLOW™ ball valves are engineered to be a true process piping component to specifically meet the demanding processes found in the pharmaceutical, bio tech, semiconductor, cosmetics, foods and other industries. The port opening of the valve's flow path is dimensionally identical to the adjacent tubing. This "Tube-ID" feature provides predictable flow rates and pressure drops and ensures thorough cleaning and full drainability as mandated by the latest ASME-BPE standard.

As an ISO:9001-2015 certified company, we are committed to quality and continuous improvement in all that we do. Only the finest and highest quality materials available from certified suppliers and manufacturers are used to produce *CleanFLOW™* ball valves.

We recommend *CleanFLOW™* ball valves to help you meet the critical demands of an ASME-BPE compliant, high purity system.

HYGIENIC VALVE SERIES

SERIES SB7

Hygienic Ball Valve
Cast
Sizes from 1/2" to 6"
*Available with Stainless Steel
or Hastelloy Materials*

SERIES SB7F

Hygienic Ball Valve
Forged
Sizes from 1/2" to 6"

SERIES SB7X

High Purity
Cast
Sizes from 1/2" to 2"
*Available with Stainless Steel or
Hastelloy Materials*

SERIES TSB7

Hygienic Multi-Port Ball Valve
Cast or Forged
Sizes from 1/2" to 4"

SERIES TSB7F

High Purity
Sizes from 1/2" to 2"

SERIES SMC9

Hygienic Multi-Port Ball Valve
Sizes from 1/2" to 4"
Available as T-Port or L-Port

SERIES OPUS™

Hygienic Ball Valve
Cast
Sizes from 1/2" to 6"

Custom Automated Valves Available!
